

Cover Sheet Software

Easy-to-Use, Tab-Through

NDF's new Cover Sheet software Program provides Civil, Criminal and Juvenile cover sheets in an easy to use format that you tab through to complete. The forms print in easy to read Times New Roman font in the format prescribed by the Judicial Administration.

The software is easy to install and very user friendly. You can set up templates for each attorney in your office, so that information will automatically drop-in and you will not have to repeatedly type that information for each new case.

You can check the data entry for accuracy on screen before printing.

If you are having a difficult time getting the Judicial Council's forms lined up in your typewriter or if you run out of space to get all the information in, **Order Your NDF Cover Sheet Software Today.**

Complete installation instructions and user manual included on the CD-ROM in easy to read .pdf format (requires Acrobat Reader).
